

Senior .NET Software Developer - Full Stack - ASP.NET C#

This is an opportunity to work for a SaaS B2B eCommerce platform company based in the heart of Leicester with offices in the US and Asia serving customers globally. As a senior .NET developer you will be leading the architecture of the SaaS platform, as well as retaining a hands-on approach.

Working with multi-nationals and SMEs this is a great opportunity to be part of a fast-growing company with an international reach. Join a team of over 110 eCommerce specialists in their recently refurbished Leicester city centre offices. As a certified partner for SAP, Microsoft Dynamics, and Netsuite they provide specialist B2B eCommerce solutions using their own platform. A great time to join this fast-growing business working with clients and projects all over the world. You will be part of a strong and growing .NET development team based in their Leicester office.

They work with a wide range of UK and International B2B eCommerce clients with offices in Leicester, London, Melbourne, Australia and New Jersey, USA.

The role will primarily consist of;

- Helping to shape and develop their Cloud B2B eCommerce platform
- Developing bespoke cloud software applications
- Integrating 3rd party cloud and on-premise software products
- Contribute to ongoing development of an Enterprise B2B eCommerce Platform
- Writing and supporting code from inception through to release
- Writing lean, clean, fast and reliable code and performing testing
- Supporting production code, fault finding and bug fixing
- Reporting to Projects Managers to ensure accurate and on-time delivery
- Meeting their clients' requirements with innovative technical solutions

You need at least 3 to 5 years experience developing commercial projects using the following technology.

Essential

- ASP.NET MVC, and Web Forms using C# and Razor
- SQL Server, Entity Framework and LINQ
- HTML 5, CSS 3 and Bootstrap
- JavaScript and jQuery
- Microsoft Visual Studio and Source Control (SVN, GIT or TFS)

Benefits include a highly competitive salary, health care, flexible and remote working, paid parking and additional annual leave. You will also benefit from professional training and development.

The position is based full-time at our offices in Leicester (Midlands), UK, but is currently remote.
